# EXPLORING PLACES

Sami Yücel  
yucels@mef.edu.tr

'Exploring Places' explores the layers and the distinct qualities of a place through comparison. The course benefits from Istanbul's diversity and focuses on the main qualities of a city.

Each week, the participants will be challenged to explore and compare a part of Istanbul to a site in a city they are unfamiliar with.

The comparisons will be backed by films, photographs and virtual site visits.
